

God Created

Gerard J. Thibeault

What man created God
That's what I'd like to know.
Whose mind decided God exists
And proclaimed it must be so?
How did this person sell the concept
Of an invisible supreme being?
What made him think anyone would believe
In something without seeing?
Where was any evidence that something was going on
Not only here on planet earth
But somewhere in the great beyond?
I know the answer; I figured it out
How this thinking all began;
The knowledge of God was implanted
On the day God created man.
